

Use this system map:
 The large map represents the major streets and areas in the city served by MATA on multiple routes. For ease of reference, all routes are color coded on the map and the frequency chart. Refer to the chart to determine the frequency of service for individual routes by day of the week and part of day.

Frequency Chart

The frequency chart shows how many minutes apart trips are scheduled for each bus route according to the time of day and the day of the week. Minutes are approximate. Please see the individual route schedules for exact times.
